

SR 113 TRAIL EXTENSION

OVERVIEW

- Currently, SR 113 trail ends at Haven Farms southern boundary, ~1,500' from Tate Lane
- The section of new trail being proposed is outside of the Midway municipal boundary, but within Midway's growth boundary
- \$ for new trail would come from a state grant with matching money from Wasatch County, UDOT, and Midway
- With current estimates, Nancy O'Toole is requesting Midway commit \$40k
- The trail would help create a safer connection to Tate Lane, which leads to Soldier Hollow
- Several unknowns still need to be dealt with including easement acquisition, existence of wetlands, engineering, existing utilities
