Midway City Historic Town Hall Retail Space

Midway City is looking to fill a prime retail space in their historic Town Hall Building. We are looking for a retail business that would complement this historic building as well as the existing businesses around the town square.

This retail space is located on the southwest corner of the Town Hall.

- Approximately 810 square feet of space divided into 3 distinct spaces
- Large windows provide ample natural light
- Space includes 1 single bathroom
- Two old bank vaults are located in the space and one of them can be used *

The City is excited to find a leaseholder whose business would be open during regular retail business hours.

A one year lease would be required.
