

TAP FUNDS AMENDMENTS

RESOLUTION 2024-26

DISCUSSION ITEMS

- We need to create a contract for recipients of funding to sign.
- We need to establish when and how they need to report on how their money was used.
- Should TAP funds be used to rent buildings rather than just simply “giving away” that option for free?
- Do we want to consider reimbursing only with receipts, rather than just writing a check?
- What % are we willing to fund?

DISCUSSION ITEMS (CONT.)

- TAPS funds are to only be used on NEW trails and parks AND the maintenance on those new projects.
- Transparency is critical – forms, ranking system and awards should all be posted on our website.
- Should we create a committee?
- Should the city control a % for trails and parks allowing applications to only be submitted as it relates to the arts?
- Any city use of TAP funds should fill out the same form and it should be on the website.

DISCUSSION ITEMS (CONT.)

- Matching funding cycles with Heber and Wasatch County will help with continuity.
- Heber and Midway will report to the county all funds used.
- Heber, Midway and Wasatch County will meet every 6 months to review processes.
